Pokot Bibliography 1854-2022: about the Pokot, West Pokot District/County, North Baringo District/County, and Upe/Amudat County

Updated: May 2023

INTRODUCTION

There is a lot of written heritage about Pokot County and its people, and about the adjacent areas where Pokot live: North Baringo and Upe in Uganda (Part of Karamoja). In 1985 the then District of West Pokot, supported by the Arid and Semi-Arid Lands Programme, started the District Information and Documentation Centre (DIDC; it still exists; initiators were Huub Hendrix and Wiegert de Leeuw as Dutch ASAL programme advisors, together with the District Development Officers during the 1980s and 1990s). For the DIDC Annemieke van Haastrecht (University of Amsterdam/IDS University of Nairobi) made a first bibliography about the existing literature about the area and its people (see Van Haastrecht 1989) and supported the gathering of lots of written texts for the DIDC in Kapenguria. She was one of the researchers attached to the ASAL Programme, with support from the government of the Netherlands. Others were Ton Dietz and Mirjam Schomaker from the Netherlands, connected to the University of Amsterdam, and to the University of Nairobi (IDS), and KVDA (Eldoret), and a.o. Rachel Matosza Andiema, the late Albinus Kotomei, Simon Lokomorian Lopeyok, Romanus Chizupo, Joyce Tumkou, Jacinta Chebet and others from West Pokot. They kept an interest in the documentation about the area and its people ever since. They were also supported by Dutch students from the University of Amsterdam, who supported the production of the District Atlas West Pokot (1985) and many Locational Development Profiles.

West Pokot County now has an established County website, with a separate entry for 'Reports and Publications'. It is the intention to expand this entry with information about Written Heritage (including maps and photographs), and this updated Bibliography is the start of that information. Where available it contains information where a document can be found on the internet, whenever there is digital availability. Where this is not yet so, attempts will be made to put additional texts online. Where possible, written permission will be sought from author(s) and publishers, but in case we could not trace their whereabouts, or communication was not possible, we include those texts hoping (and expecting) that the original 'owners' of these texts agree. We follow a chronological order. Assistance and suggestions so far have been given by Nelly Andiema (Kibabii), Clemens Greiner (Cologne), Annemieke van Haastrecht (Overveen), Huub Hendrix (Leiden), Sam Lunn-Rockliffe (London), Stephen Mureithi (Nairobi), Solomon Mutai (Librarian Moi University, Eldoret), and Gert Nyberg (Umeå, Sweden).

It is not possible to use strict geographical boundaries of texts relevant to West Pokot, North Pokot in Baringo County and the Pokot area in Uganda. Sometimes also texts for a larger area have been included, including Karamoja, Turkana, Central and South Baringo (including the Ilchamus and Tugen people) as well as text about the Sengwer/Cherangani people, which mainly deals with Northwest Elgeyo Marakwet County, bordering West Pokot. And there are some texts about the Kalenjin people as a whole.

Google Scholar (GS: https://scholar.google.com/) has been a great help to trace information that could then be included in this annotated bibliography. In many cases, we also added a recent Google Scholar (GS) assessment of the number of times a certain text has been referred to in other (scientific) texts.

It is the intention to update this bibliography regularly. Additions or corrections are welcome!

So far we have included close to 1350 different publications in this (partly annotated) bibliography, and it is interesting to note that until 2000 the authors were mainly foreigners, but from 2000 onwards ever more Kenyan authors published scholarly work on the Pokot area and people, and among them there is an increasing group of writers coming from the Pokot area itself.

"Höhnel was the second-in-command of Count Sámuel Teleki von Szek's expedition to Northern Kenya in 1887–1888. He and Teleki were the first Europeans to see Lake Turkana, which they named Lake Rudolf after the expedition's patron Crown Prince Rudolf of Austria, and also Lake Stefanie, named after Prince Rudolf's wife Princess Stéphanie of Belgium. Höhnel acted as the expedition's cartographer, scientist, and diarist. Teleki and Höhnel made numerous observations on the climate, flora, and fauna of the territories visited and collected more than 400 ethnographical objects, most of them from Maasai and Kikuyu tribes. Their observations provided important contribution to ethnographical knowledge. The scientific results of the journey were published by Höhnel in several articles and in a book written in German and translated into Hungarian and English, titled The Discovery of Lakes Rudolf and Stefanie (1892)".

1990-2	Bollig, M., 1990, An outline of pre-colonial Pokot history. Afrikanistische Arbeitspapiere 23: 73-91.	"This paper, based on fieldwork carried out in 1987-1989 in Baringo District, Kenya, deals with the precolonial history of the Eastern Pokot, that is the Pokot living in Nginyang Division of Baringo District. Many Eastern Pokot lineages claim their roots in the hilly areas of the northern Cherengani and Sekerr ranges and it is their traditions which should be analysed to approach an understanding of their pre-1800 history". This art of building in stone, he insisted, was quite alien to Kalenjin culture; it was a "higher," more "civilized," trait.33 So were stone terraces constructed for cultivation, and gravity-fed irrigation canals… Thus to explain the maintenance of such irrigation works among sections of the northern Kalenjin inhabiting the Rift escarpment, he fell back on a circular argument echoing the crudest of colonial prejudice: Irrigation by means of such canals ... is still practised by the Suk [Pokot] and Marakwet, backward tribes of the Nandi group. They are too barbarous to have learned it themselves, and it is probably an Azanian legacy (referring to 1933:161)". [95] GS Oct 2021: 5 citations, none relevant to Pokot
